

Anna Popova

Junior QA Engineer

annshter@gmail.com +1 (929) 425-6840

Profile

I am a Junior Software Tester with strong attention to details. While living in the USA, Ukraine, and China, I used to test functionality in local apps that regular users do not use very often. And those bugs were reported to developers by me. I am looking for a company that will give me the chance to learn and continue developing myself as a Software Tester. As for now, I work in a start-up that develops phone apps, and webs.
