Anna Popova

Junior QA Engineer

👤 Profile

I am a highly motivated worker, who likes to face new challenges. I learned Chinese and English by myself and got into Chinese University. Also while getting my degree I have got into a Chinese-Ukrainian Pharmacology company and signed 47 successful contracts.

I had done my own research about testing and I decided to take QA courses at Hillel school. It helped me to gain the knowledge to work confidently on projects, which I am willing to use in a company that will provide me with the chance to learn and develop myself as a Software Tester.
